

Engineering Opportunity

Highways Infrastructure CAD Technician.

Who we are:

Momentum is a London based transport consultancy. As a dynamic and growing company our future is being built around a team of the very best people.

We are working on some of the most exciting and challenging development infrastructure projects in London, Europe and across the world, from large commercial skyscrapers to sport stadiums and major events projects in London, we are leading the debate on smart servicing and autonomous vehicles, and are redesigning roads and streets that look to the future of transport.

Our ability to design and create public spaces, roads and streets, parks and plazas for people and communities sets us out as one of the UK's most highly regarded transport engineering consultancies. Our clients include major developers, architects, contractors and local authorities; they include TfL, London Borough of Redbridge, City of London, London Borough of Camden, Landsec, the London Legacy Development Corporation, Canary Wharf, British Land, Brockton Capital, YOO Capital, Brookfield, HB Reavis, Mace, Bam, and Multiplex.

Momentum's engineers take the lead in all aspects of transport infrastructure and public realm design and construction – we support our clients across the project lifecycle, from ideas generation at inception and planning stages, through to detailed design and working on site overseeing construction.

Our opportunity:

As our civil engineering offering is evolving and growing, we are looking for enthusiastic CAD Technicians to join our team, based in our London office.

Your role will involve supporting the development of technical designs for a range of highway and traffic engineering projects at different stages.

You will work closely with engineers and transport planners and will contribute to the successful delivery of projects by producing technical drawings and specifications. You will support the development and maintenance of Momentum's CAD Standards, identifying improvements and efficiencies.

To hear about some of our latest news, and from our staff on what life is like at Momentum, visit our blog page:

www.momentum-transport.com/blog

Who you are:

You will be a self-starter, love working in a small hard-working team and have a passion for the urban built environment, transport and highway infrastructure engineering and its challenges.

You will be able to demonstrate the following:

- Competency in the use of AutoCAD
- Experience in producing drawings for highway and traffic infrastructure schemes from concept through to detailed design
- Ability to work independently
- Ability to perform in accordance with agreed budget and programme with little supervision
- Ability to adapt to new CAD Standards and follow them closely

Desirable skills and experience:

- HNC qualification in Civil Engineering or equivalent.
- Experience using Autodesk Civil 3D
- Experience using Autodesk Vehicle Tracking
- Experience using KeySoft software (KeySIGN, KeyLINES and KeyPOST)
- Drainage software experience
- Experience in developing and improving team/company CAD Standards

What we offer you:

The opportunity to work with some of the best professionals in the industry. A vibrant, dynamic and collaborative working environment, in our new central London based head office.

A competitive remuneration and benefits package, including bonuses. Our commitment to ongoing training and professional development.

Next Steps:

If you are excited about this permanent opportunity, please email a CV and short covering letter, stating the role you are applying for. Explaining why you believe you would be a great candidate for Momentum Transport Consultancy to:

engineering@momentum-transport.com

Momentum is an equal opportunities employer. In applying to Momentum you will be supplying us with personal data contained within your CV and cover letter. This could include your name, address, email, previous work details etc. In line with our Privacy policy (which we hold on our company website), we ensure that your data is held securely. We retain any applicant's details for 1 year following the end of the recruitment campaign.

Please note this is a London office-based opportunity.
