

Engineering Opportunity

Highways Infrastructure Engineer

Who we are:

Momentum is a London based transport consultancy. As a dynamic and growing company our future is being built around a team of the very best people.

We are working on some of the most exciting and challenging development planning and infrastructure projects in London, Europe and across the world, from large commercial skyscrapers to sport stadiums and major events projects in London, we are leading the debate on smart servicing and autonomous vehicles, and are redesigning roads and streets that look to the future of transport.

Our ability to design and create public spaces, roads and streets, parks and plazas for people and communities sets us out as one of the UK's most highly regarded transport engineering consultancies.

Our clients include major developers, architects, contractors and local authorities; they include TfL, London Borough of Redbridge, City of London, London Borough of Camden, Landsec, the London Legacy Development Corporation, Canary Wharf, British Land, Brockton Capital, YOO Capital, Brookfield, HB Reavis, Mace, Bam, and Multiplex.

Momentum's engineers take the lead in all aspects of transport infrastructure and public realm design and construction – we support our clients across the project lifecycle, from ideas generation at inception and planning stages, through to detailed design and working on site overseeing construction.

Our opportunity:

As our civil engineering offer is evolving and growing, we are looking for forward thinking Engineers to join our team, based in our London office.

Your role will include the development of technical designs for a range of highway and traffic engineering projects at different stages, technical reports and specifications, research, and reporting as required to support our clients. You will contribute to project management tasks and will be in contact with our clients regularly.

You will support and encourage junior engineers and will share your knowledge and skills with the team.

You will contribute to develop our business and will attend and support relevant conferences, seminars and networking events.

To hear about some of our latest news, and from our staff on what life is like at Momentum, visit our blog page: www.momentum-transport.com/blog

Who you are:

You will be a self-starter, love working in a small hard-working team and have a passion for the urban built environment, transport and highway infrastructure engineering and its challenges.

You will be able to demonstrate the following:

- You have a Civil Engineering degree, equivalent, or experience in similar technical engineering discipline
- Experience in developing all aspects of transport and highway infrastructure schemes from concept through to detailed design
- Ability to work independently
- Experience of performing in accordance with agreed budgets and programmes with limited supervision
- Enthusiasm to support and encourage junior members of the team
- Strong written and verbal communication skills
- Strong numeracy and analytical skills
- Experience using Microsoft Office and
- AutoCAD

Desirable skills and experience:

- Will be a Chartered Engineer (ICE/CIHT/ similar), or demonstrate you are working towards this
- Experience in urban design, local roads & streets and public realm
- Experience using Autodesk Civil 3D
- On site delivery experience, knowledge of scheme implementation, inspections, resident engineer duties
- Drainage design experience
- Experience in business development and client relationships

What we offer you:

The opportunity to work with some of the best professionals in the industry. A vibrant, dynamic and collaborative working environment, in our new central London based head office. A competitive remuneration and benefits package, including bonuses. Our commitment to ongoing training and professional development.

Next Steps:

If you are excited about this permanent opportunity, please email a CV and short covering letter, stating the role you are applying for. Explaining why you believe you would be a great candidate for Momentum Transport Consultancy to: engineering@momentum-transport.com

Momentum is an equal opportunities employer. In applying to Momentum you will be supplying us with personal data contained within your CV and cover letter. This could include your name, address, email, previous work details etc. In line with our Privacy policy (which we hold on our company website), we ensure that your data is held securely. We retain any applicant's details for 1 year following the end of the recruitment campaign.

Please note this is a London office-based opportunity.
