

# Engineering Opportunity

## Highways Infrastructure Senior / Principal Engineer

### Who we are:

Momentum is a London based transport consultancy. As a dynamic and growing company our future is being built around a team of the very best people.

We are working on some of the most exciting and challenging development planning and infrastructure projects in London, Europe and across the world, from large commercial skyscrapers to sport stadiums and major events projects in London, we are leading the debate on smart servicing and autonomous vehicles, and are redesigning roads and streets that look to the future of transport. Our ability to design and create public spaces, roads and streets, parks and plazas for people and communities sets us out as one of the UK's most highly regarded transport engineering consultancies.

Our clients include major developers, architects, contractors and local authorities; they include TfL, London Borough of Redbridge, City of London, London Borough of Camden, Landsec, the London Legacy Development Corporation, Canary Wharf, British Land, Brockton Capital, YOO Capital, Brookfield, HB Reavis, Mace, Bam, and Multiplex.

Momentum's engineers take the lead in all aspects of transport infrastructure and public realm design and construction – we support our clients across the project lifecycle, from ideas generation at inception and planning stages, through to detailed design and support during construction.

### Our opportunity:

As our civil engineering offer is evolving and growing, we are looking for forward thinking experienced Senior and Principal Engineers to join our team, based in our London office.

Your role will include leading others in the engineering design, technical analysis, research, and calculations, and reporting as required to support our clients. You will manage a wide range of projects with autonomy, and be the primary point of contact with clients.

In your role as a personal supervisor, you will be responsible for the progression and support of members of our team, and ensuring they have the training, responsibility and opportunities they need to develop and thrive at Momentum.

You will take a pro-active role in developing our business in line with our business strategy. This will include building existing client relationships, and developing new ones. You will attend and support relevant conferences, seminars and networking events.

To hear about some of our latest news, and from our staff on what life is like at Momentum, visit our blog page: [www.momentum-transport.com/blog](http://www.momentum-transport.com/blog)

You will be a self-starter, love working in a small hard working team and have a passion for the urban built environment, transport and highway infrastructure engineering and its challenges.

## Who you are:

---

### You will be able to demonstrate the following:

- You have a Civil Engineering degree, equivalent, or experience in similar technical engineering discipline
- Ability in developing all aspects of transport and highway infrastructure schemes from concept through to detailed design
- Ability to work independently
- Ability to oversee and check the work of others
- Ability to successfully manage a range of projects, including resources, budgets and programmes
- Ability to successfully manage and build effective client relationships.
- You have strong written and verbal communication skills
- Strong numeracy and analytical skills
- Ability using Microsoft Office and
- AutoCAD

### Desirable skills and experience:

- Will be a Chartered Engineer (ICE/CIHT/ similar), or demonstrate you are working towards this
- Experience in urban and public realm design
- Ability to develop and review designs in Civils3D
- On site delivery experience, knowledge of scheme implementation, inspections, resident engineer duties
- Drainage design experience, and use of WinDes
- Business development and client relationship development

## What we offer you:

---

The opportunity to work with some of the best professionals in the industry. A vibrant, dynamic and collaborative working environment, in our new central London based head office.

A competitive remuneration and benefits package, including bonuses. Our commitment to ongoing training and professional development.

## Next Steps:

If you are excited about this permanent opportunity, please email a CV and short covering letter, stating the role you are applying for. Explaining why you believe you would be a great candidate for Momentum Transport Consultancy to:

[engineering@momentum-transport.com](mailto:engineering@momentum-transport.com)

Momentum is an equal opportunities employer. In applying to Momentum you will be supplying us with personal data contained within your CV and cover letter. This could include your name, address, email, previous work details etc. In line with our Privacy policy (which we hold on our company website), we ensure that your data is held securely. We retain any applicant's details for 1 year following the end of the recruitment campaign.

Please note this is a London office-based opportunity.
