

Graduate Opportunity

Transport Modelling

Who we are:

Momentum is a London based transport consultancy. As a dynamic and growing company our future is being built around a team of the very best people.

We are working on some of the most exciting and challenging development planning and infrastructure projects in London, Europe and across the world, from large commercial skyscrapers to sport stadiums and major events projects in London, we are leading the debate on smart servicing and autonomous vehicles, and are redesigning roads and streets that look to the future of transport.

Our ability to design and create public spaces, roads and streets, parks and plazas for people and communities sets us out as one of the UK's most highly regarded transport engineering consultancies.

Our clients include major developers, architects, contractors and local authorities; they include TfL, London Borough of Redbridge, City of London, London Borough of Camden, Landsec, the London Legacy Development Corporation, Canary Wharf, British Land, Brockton Capital, YOO Capital, Brookfield, HB Reavis, Mace, Bam, and Multiplex.

Our opportunity:

We have an opportunity for talented graduates to join our Modelling team on a full-time and permanent basis, based in our London office. We strongly believe in giving our junior members of the team training, responsibility and opportunities they need to develop and all of our team are exposed to a wide variety of interesting project work and clients.

The successful candidates would undertake modelling work using specialist modelling/micro-simulation software and Excel, the results of which would be used to support design work on high profile sports stadia, public realm projects and transport infrastructure projects. For further information on some of our modelling work, please visit our Pedestrian Modelling page of our website here:

www.momentum-transport.com/service/pedestrian-modelling

Who you are:

You will be a self-starter, love working in a small hard-working team and have a passion for the Urban Built environment and its challenges. You will have strong attention to detail and be driven to focus on and follow through with tasks.

Specific skills and experience:

- Strong written and verbal communication skills
- Excellent numeracy and analysis skills
- Comfortable working on large data sets
- Experience of using Microsoft Office, in particular Word and Excel
- A recently completed relevant degree (e.g. Geography, Transport Planning, Statistics, Civil Engineering)
- Good problem-solving skills

Desirable skills and experience:

- Basic awareness of traffic/simulation software
- Basic awareness of and/or skills in using AutoCAD or any other design software

What we offer you:

The opportunity to work with some of the best professionals in the industry. A vibrant, dynamic and collaborative working environment, in our new central London based head office. A competitive remuneration and benefits package, including bonuses with targeted and specialised training and professional development. Access to Women in Transport membership (if applicable) as well as access to our internal mentoring scheme, in-house massages and weekly yoga sessions.

Next Steps:

If you are excited about this opportunity, please email a CV and covering letter explaining why you would be a great candidate for Momentum Transport Consultancy with the email subject being “**Application to Graduate Modelling opportunity**” to graduaterecruitment@momentum-transport.com

Applicants of interest to the company will then be asked to complete a short excel spreadsheet and written assessment task, to be undertaken over an agreed 24-hour period. Following successful completion of the assessment, candidates will then be invited to interview.

Momentum Transport Consultancy is an equal opportunities employer.

In applying to Momentum you will be supplying us with personal data contained within your CV and cover letter. This could include your name, address, email, previous work details etc. In line with our Privacy policy (which we hold on our company website), we ensure that your data is held securely. We retain any applicant’s details for 1 year following the end of the recruitment campaign. Please note this is a London based opportunity.
