

Graduate Opportunity

Transport Planning

Who we are:

Momentum is a London based transport consultancy. As a dynamic and growing company our future is being built around a team of the very best people.

We are working on some of the most exciting and challenging development planning and infrastructure projects in London, Europe and across the world, from large commercial skyscrapers to sport stadiums and major events projects in London, we are leading the debate on smart servicing and autonomous vehicles, and are redesigning roads and streets that look to the future of transport.

Our ability to design and create public spaces, roads and streets, parks and plazas for people and communities sets us out as one of the UK's most highly regarded transport engineering consultancies.

Our clients include major developers, architects, contractors and local authorities; they include TfL, London Borough of Redbridge, City of London, London Borough of Camden, Landsec, the London Legacy Development Corporation, Canary Wharf, British Land, Brockton Capital, YOO Capital, Brookfield, HB Reavis, Mace, Bam, and Multiplex.

Our opportunity:

We have an opportunity for talented graduates to join our Planning team on a full-time and permanent basis, based in our London office. We strongly believe in giving our junior members of the team training, responsibility and opportunities they need to develop and all of our team are exposed to a wide variety of interesting project work and clients.

From day 1 the successful candidates would undertake a range of work across the transport planning environment, including research, analysis, forecasting, contributions to proposals and reports.

For more of an insight into what life as a Momentum grad entails, click to see what our previous graduates had to say about their experiences so far.

www.momentum-transport.com/a-chat-with-the-grads/

Who you are:

You will be a self-starter, love working in a small hard-working team and have a passion for the Urban Built environment and its challenges. You will be forward-thinking and have ideas about sustainable transport solutions for the future city.

Specific skills and experience:

- Strong written and verbal communication skills
- Strong numeracy and analysis skills
- Experience of using Microsoft Office, in particular Word and Excel
- A recently completed relevant degree (e.g. Geography, Planning and Urbanism studies, Mathematics)
- Comfortable working on large data sets

What we offer you:

The opportunity to work with some of the best professionals in the industry. A vibrant, dynamic and collaborative working environment, in our central London based head office. A competitive remuneration and benefits package, including bonuses with targeted and specialised training and professional development. Access to Women in Transport membership (if applicable) as well as access to our internal mentoring scheme, in-house massages and weekly yoga sessions.

Next Steps:

If you are excited about this opportunity, please email a CV and covering letter explaining why you would be a great candidate for Momentum Transport Consultancy by **Friday 9th April 2021** with the email subject being “Application to Graduate Transport Planning opportunity” to graduaterecruitment@momentum-transport.com

Applicants of interest to the company will then be asked to complete a short excel spreadsheet and written assessment task, to be undertaken over an agreed 24-hour period. Following successful completion of the assessment, candidates will then be invited to interview. The timescales for this will be confirmed separately.

Momentum Transport Consultancy is an equal opportunities employer.

In applying to Momentum you will be supplying us with personal data contained within your CV and cover letter. This could include your name, address, email, previous work details etc. In line with our Privacy policy (which we hold on our company website), we ensure that your data is held securely. We retain any applicant’s details for 1 year following the end of the recruitment campaign. Please note this is a London based opportunity.
